Release of HDF 4.2.13

The HDF 4.2.13 release is now available. It can be obtained from the HDF4 home page:

<https://support.hdfgroup.org/products/hdf4/>

HDF 4.2.13 is a minor release with a few changes, including:

- Support was added for macOS Sierra 10.12.5.
- Several memory leaks were fixed.
- The minimum CMake version supported is 3.2.2.

For detailed information regarding this release, please see the [Release Notes](#).
